Open the first Sunday of the month, closed in case of bad weather.

The hermitage can be reached only on foot through dug-up paths. The main path, leaving from the church in Lumignano, is closed at the moment (with signs and barriers) because of a landslide. This is being restored by the end of spring 2014. It takes less than 20 minutes on foot. Gym shoes or hiking boots are recommended. The other path, the only one which can be followed at the moment, leaves from the slopes of mount Brojon. This path can be entered at the end of via Brojo and, keeping to the left at the various forks, you go on looking out in order not to rise in height. When you reach the brook in the middle of the valley, turn left again and then you will find the signs to the hermitage. Gym shoes or hiking boots are recommended.

Public transport: leaving from Vicenza railway station, aim bus line 8, bus stop Lumignano centro (about 1 km far from the hermitage).

Price for individuals: € 2
